Getting approval to deliver...
Fire Safety for Managers

What is the *Fire Safety for Managers* course?

A sustainable workplace fire safety culture is fuelled by a shared set of positive attitudes, knowledge, perceptions and beliefs about fire prevention and fire protection. An important step towards this culture is gaining buy-in from owners, managers and supervisors. Without their support, efforts in this direction would be difficult. *Fire Safety for Managers* presents a powerful case for making fire safety an integral part of day-to-day management and business.

Fire Safety for Managers
- a short course (five hours of face-to-face contact) covering fire safety issues that managers are responsible for
- flexibility to deliver the course either in-house or as a scheduled public course
- high-quality graphics created exclusively for the course
- a sophisticated and fun presentation
- first-class technical content, based on what delegates need to know in practice
- no jargon or off-putting legal language
- clear scenarios that people can relate to

Marking success in *Fire Safety for Managers*
Delegates who successfully complete the course receive IOSH's *Fire Safety for Managers* certificate.

Fire Safety for Managers delivers...

Who is *Fire Safety for Managers* for?
Fire Safety for Managers is designed for managers and supervisors in any sector, and any organisation worldwide, who require an awareness of their fire safety responsibilities.

What will delegates get out of it?
Delegates will gain the knowledge and tools to tackle the relevant fire safety issues they're responsible for. The course is designed to take initial steps in raising owners', managers' and supervisors' awareness and knowledge of fire safety and introduces the concept of a fire safety culture. It will also encourage delegates to address core issues in their respective workplaces, based on a set of defined competencies.

What will employers get out of it?
- Globally-recognised and respected certificated training for their managers and supervisors
- Peace of mind offered by training that's designed and quality-assured by the Chartered body for safety and health professionals
- Flexibility: the programme can be delivered in time-slots that suit the business

What will trainers get out of it?
- Straightforward, high-quality training designed by a team of specialists
- A ready-to-go training programme – we've done the hard work, saving trainers the headache and the hassle
- Full back-up from our support team on every aspect of training, from advice on the training environment to guidance on marking assessments
- Free technical updates

And the end results are...
- improved, organisation-wide fire safety awareness culture and appreciation of fire safety measures
- proactive staff involvement to improve the workplace
- enhanced reputation in the supply chain.

Fire Safety for Managers covers…

- **Employers' responsibilities**
  The first module takes a deeper look into the fire safety responsibilities of employers. Following an overview of the responsibilities themselves, we start to take a look at them in delegates' own workplaces.

- **Fire and fire safety measures**
  In module two, delegates look at the elements of a fire tetrahedron and how a fire may start. They are then taken on a journey through safe evacuation and what to do in event of a fire. The types and use of firefighting equipment are considered.

- **Assessing fire risks**
  Module three looks at fire risk assessment in a practical way, using a case study to bring it to life. Following this risk assessment, delegates will look at the actions they may take following fire risk identification.

- **Creating a fire safety culture**
  In module four, delegates will look at how a management system can help their organisation manage fire safety, and how creating a fire safety culture will have a positive impact in the workplace.

Each module is backed by crystal-clear examples and recognisable scenarios. Summaries reinforce the key learning points.

Delegates taking the *Fire Safety for Managers* course will be assessed using a multi-format paper made up of 15 questions.

Fire Safety for Managers includes…

- access to an online platform, which enables trainers to deliver the face-to-face course to delegates
- a course presentation, featuring engaging graphics and case studies
- a digital set of trainer notes (a step-by-step guidance on delivering the course)
- a digital bank of assessment papers and marking papers
- supporting documents and handouts to download and print
- a delegate workbook (extra fee applies).

The animated presentation is downloaded from a secure online platform. You get access to IOSH's Course Management System (CMS) to help you manage and deliver IOSH-produced courses through one central, web-based platform. The CMS allows us to keep our course content up-to-date, with the latest guidance.

It also enables you to create personalised or translated versions of IOSH courses to address specific training needs.

The presentation is compatible on Windows with Internet Explorer version 11, Chrome and Firefox (latest versions). It's also compatible on Macs with Safari and Chrome (latest versions).

Once you log in to the CMS, it's easy to run or manage your licensed courses, manage any other trainer users who are assigned to your training provider account, and produce information on course usage. We've produced a dedicated extension for the Chrome browser for you to install, so that you can deliver IOSH courses offline – anytime, anywhere, without an internet connection.

Delivering *Fire Safety for Managers*

If you want to run *Fire Safety for Managers*, you or someone from your organisation must be the 'nominated IOSH member'. It's this person's responsibility to oversee the course and act as the first line of quality control. Centrally, quality control is provided by IOSH's Training team.

All trainers who deliver *Fire Safety for Managers* need to have at least*:*
- Technical membership of IOSH (a safety and health qualification is required) – all members' CPD must be in good standing
- three years' relevant fire safety experience - either practical, theory or in the delivery of training
- an adult training qualification at level 3 (QCF), such as an Award in Education and Training

OR
- two years' substantial, face-to-face training delivery experience.
